

# Uncapped, unshaped wireless broadband for SMEs

# NeoBroadband Wireless

An end-to-end wireless service that will have you connected the moment your service is installed

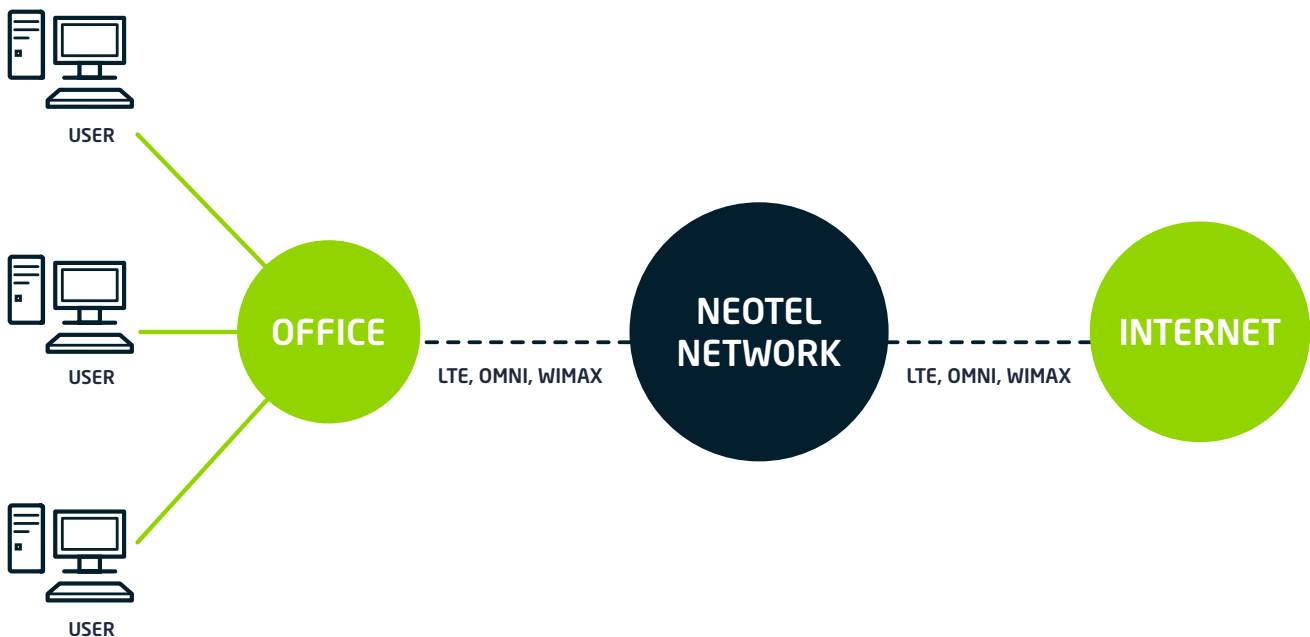

- Scalable, reliable and cost-effective
- Simple integration into your LAN
- Asymmetrical bandwidth
- Consistent, uncapped and unshaped broadband internet
- Extensive network of LTE, WiMAX and Omni base stations
- Quick deployment

## Product overview

NeoBroadband Wireless, powered by Neotel, is a broadband internet service designed specifically for SOHOs. NeoBroadband Wireless is an affordable, contended best effort, uncapped, unshaped access service that is both flexible and scalable. It offers the capability to grow with your business and can be upgraded as and when you require.

Access packages are configured to suit business requirements from 1 Mbps to 10 Mbps. The asymmetrical bandwidth is burstable for all internet traffic (both local and international). Neotel does not offer an SLA or SMTP relay with this product offering.

## How it works

## Features and benefits

- Licensed service
- 1 static IP address is available - static IP addressing allows better control and management of your network
- Scalability - the upgrade path is simple and easy to do
- Robust network topology - reliable and efficient network
- Uncapped bandwidth service - continuous internet access
- 25 : 1 contention ratio
- Fair use policy applies - your speed will be reduced by 50% once FUP is reached

## Service offering

Services	Download speed	FUP (GB)
Neobroadband Wireless 1 Mbps	1 Mbps	100
Neobroadband Wireless 2 Mbps	2 Mbps	200
Neobroadband Wireless 4 Mbps	4 Mbps	400
Neobroadband Wireless 6 Mbps	6 Mbps	600
Neobroadband Wireless 8 Mbps	8 Mbps	800
Neobroadband Wireless 10 Mbps	10 Mbps	1000

### Notes

- NeoBroadband Wireless is available in Johannesburg, Pretoria, Cape Town, Durban and Bloemfontein but is coverage dependent
