- No upfront capital layout
- Record and store meetings
- Easy-to-use, one-click interface
- Share presentations and documents effortlessly
- Desktop and mobile VC apps included
- Comprehensive SLA
- 24/7/365 support

## Product overview

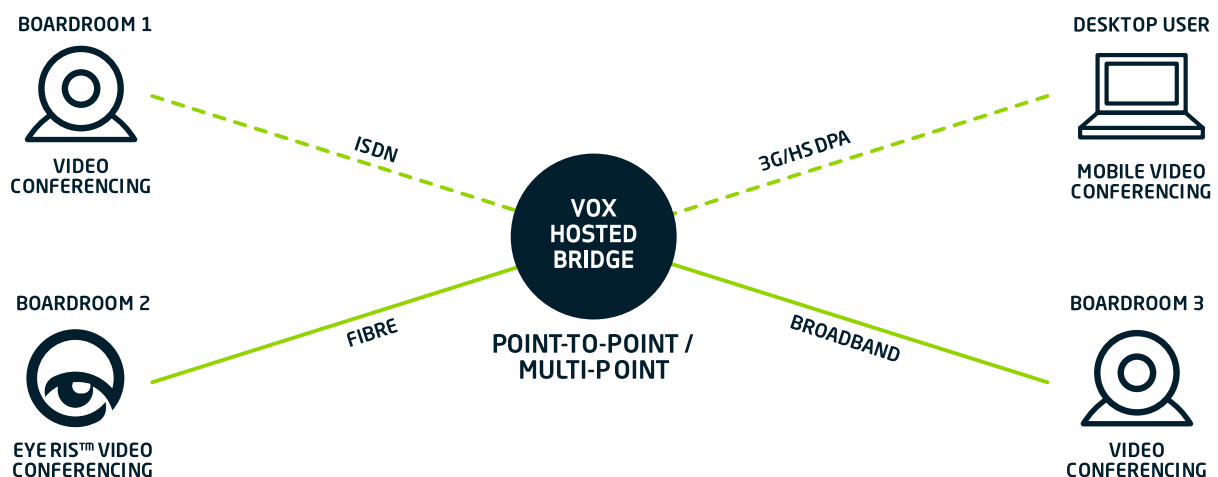

Eyeris™ video conferencing is an affordable, all-in-one conferencing bundle. Eyeris is a full mobile media cart, delivered to your office. It includes a high-definition video conferencing camera, touch screen remote and either one or two HD TV screens.

Eyeris is a high-definition, point-to-point or multi-point conferencing bundle that cuts out high travel costs and enables people in different locations to meet "face-to-face". With high-definition audio and video quality, people are crystal clear, and meetings are natural and productive. Eyeris offers an affordable video conferencing bundle

that connects your customers and staff members wherever they are. Eyeris removes the capital expenditure usually associated with video conferencing and cutting-edge technology keeps bandwidth costs low.

Reduce travel costs, record and store meetings, save on time, and share presentations and documents effortlessly. Eyeris is an easy-to-use video conferencing tool that will change the way your business operates.

## How it works

## Features

- True high-definition, affordable communication
- Real-time document/presentation sharing
- Hosted IP bridge, enabling multi-point, multi-access video conferencing
- Includes 5 free mobile/desktop licences
- Multi-point functionality enables up to 6 boardroom/mobile participants in a single conference
- Unprecedented bandwidth efficiency
- Legacy system support
- Comprehensive SLA (Service Level Agreement)
- Desktop and mobile VC apps included
- Round-the-clock support
- Supports linking of older ISDN solutions to newer IP solutions and vice versa
