

Broadband internet for business

Unmatched reliability, highest performance and greatest flexibility for uncompromising business needs

Fat Pipe Business Wireless

- Our national wireless footprint ensures access in some metro and previously underserved areas throughout South Africa
- All services are deployed on the Vox Wireless infrastructure and can be tailor-made to the customer's specific needs
- Best effort, symmetric last mile access
- These services are bundled with Hosted PBX, uncapped voice, uncapped data and mobile data scaled to your specific business needs
- Efficient lead times
- Superior converged voice and data services to meet the exacting needs of today's business market

Product overview

The Vox Wireless infrastructure creates an ideal environment for the employment of fast and reliable voice and data services which translates into a customisable, adaptable and ultimately cost effective business solution. Fat Pipe Business Wireless, running over Vox Wireless infrastructure, is a high-quality connection, with a fast network you can rely on.

We use the best, Licensed Microwave Technology, utilising the 28GHz ICASA- allocated spectrums with proven results. This proven technology, combined with our discounted voice and internet access, guarantees you a quickly deployable and cost-effective solution for your business.

Features and benefits

- **Quick installation**
Faster installation times than traditional serial based technology provides similar security, performance and reliability of wired networks.
- **Versatile**
Optimise voice and data by converging these services over the wireless network. The efficiency of wireless enables fast file transfers and effective utilisation of conferencing tools and live document sharing, cloud computing and online data storage.
- **Customisable and scalable**
Solutions are designed for customer's speed and monthly data consumption needs by making key changes to the default wireless broadband offering or building a unique solution from the ground up. Additional capabilities may be added with extra static IP addresses, voice channels and PBX extensions.

Service offering

Vox offers a wide range of uncapped wireless broadband solutions. All solutions are designed for companies with

high demands on quality and performance, and for companies with high data consumption needs.

Business Uncapped bundles

PRODUCT NAME	2MBPS UNCAPPED ZONE 1	5MBPS UNCAPPED ZONE 1	10MBPS UNCAPPED ZONE 1	20MBPS UNCAPPED ZONE 1	50MBPS UNCAPPED ZONE 1	100MBPS UNCAPPED ZONE 1
