- Route home and office calls to your mobile phone\*
- Interoperable with Android and iOS devices and all mobile networks
- Enables call recording, conference calls and call transfers\*
- Available for download via Apple App Store and Google Play Store

## Product overview

Vobi, from Vox, is a mobile softphone, i.e. an application allowing users to make and receive calls from their mobile phones using the Vox network. Designed for both home users and businesses, Vobi allows you to benefit from reduced call rates on video and voice calls across all networks and international destinations and enables you to route your home phone and/or office phone calls to your mobile phone, ensuring you are always available no matter where you are\*\*.

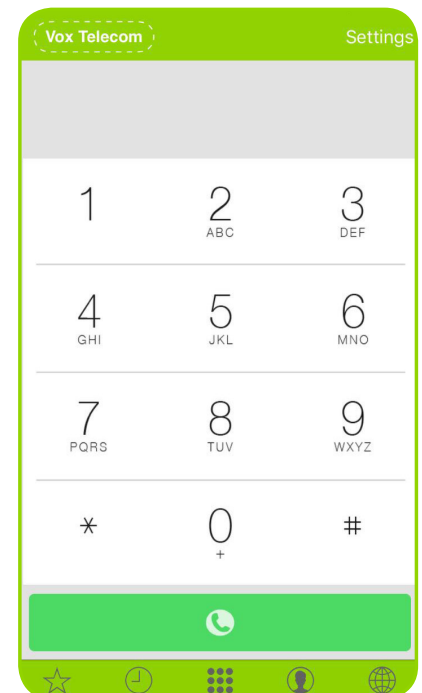

Save on your telephony bill by cancelling your existing Telkom landline, moving your number to Vox and using Vobi to make and receive all your calls.

Vobi enables call recording, conference calls and call transfers\*. It fully integrates with your address book and supports your Bluetooth headset. Available for free download through the Google Play Store and Apple App Store, Vobi turns your mobile phone into your home/office phone in an instant.

iPhone

Android
