

Next Generation Vox Collaborate Room System

Vox Collaborate

By equipping meeting spaces with an award-winning Vox Collaborate Room System, you will unlock the power of your people and the spaces they collaborate in.

- Increases productivity and cuts the costs of meetings
- Greatly enhances boardroom dynamics and enables meetings to start and finish on time
- Equips every meeting space with video conferencing at a fraction of the cost of legacy systems
- Provides wireless, cable-free and hassle-free presenting to improve meeting efficiency and productivity by driving increased collaboration
- Allows you the choice of conferencing platform
- Provides 4K Ultra HD resolution for 50,000 hours of use with a 5-year warranty

Product overview

Meeting spaces are a strategic element of collaboration. The design of venues and the equipment selected for collaboration impact directly on employee productivity.

When considering the frequency of meetings, and the growing need for collaborative workspaces to drive efficiency and to speed decision making, it is crucial to get the technology in the venue right the first time.

Outdated room systems confuse users as they are difficult to operate and do not connect participants from their devices of choice.

The Vox Collaborate Room System is a highly cost effective all in one interactive touch screen with built in PCs for whiteboarding and annotating, in-room presentation, video conferencing, web browsing and wireless content sharing from any personal device.

Each Vox Collaborate Room System has been carefully crafted to cater for venue size and includes:

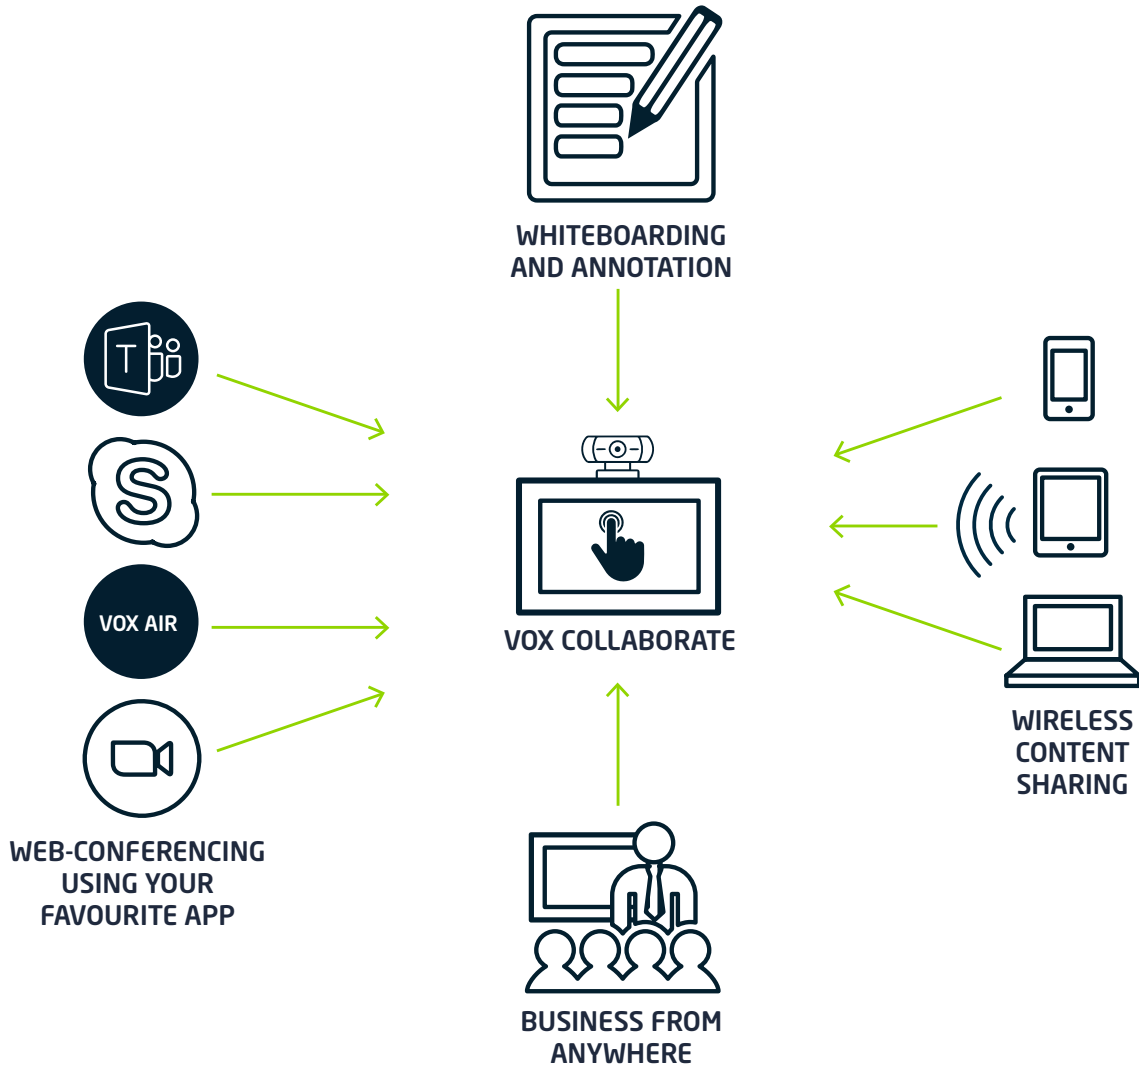

- A 4K (3,840 x 2,160) high brightness LCD touch screen,
- Android and/ or Windows PC,
- Built-in wireless content sharing,
- An appropriate camera and microphone system.

By enabling meeting spaces with a complete collaboration system from Vox you will transform the way your people collaborate, innovate and create.

The Vox Collaborate Room System is a complete solution that is easy to use, simple to install, will work with your current system setup and is designed for over 50,000 hours of use. With low maintenance and no consumables, a Vox Collaborate Room System provides the only complete all in one solution for Enterprise.

The Vox
Collaborate
Room System
delivers unrivalled
value

How it works

Features and benefits

- **Complete range of 4K screen sizes 65", 75", 86"**
Enables you to equip meeting venues of varying sizes with an appropriate solution whilst providing the same user interface in every venue.
- **Wireless content sharing from any personal device**
Simple, bidirectional connectivity which allows users to share any content from any device to the screen, and into a video conference call, whilst having full control of their PC from the touchscreen.
- **Video Conferencing**
The Vox Collaborate Room System has been designed to be flexible and agnostic, so you can use your existing VC solutions and software. Our open platform approach gives you access to cloud-based applications such as Skype for Business, Teams, Vox Air, Slack, Zoom, and Google Hangouts.
- **Natural, Fluid Writing**
Provides a natural writing experience with no lag. Whiteboard or annotate over any document. Erase with your palm. Pinch and pull to zoom. Enjoy great gesture controls with infinite whiteboarding.
- **Dynamic Messaging**
Send real-time messages to your Vox Collaborate Room System screens. IT, Marketing or Corporate Communication teams can create messages for 24/7 use with live alerts and announcements.
