2. Specific provisions pertaining to all Vox mobile data products

- 2.1 The products are dependent on the network coverage of the Mobile Operator, over which the supplier has no control and makes no guarantees.
- 2.2 Network coverage is dependent on the cellular network utilized and may vary per subscriber congestion.
- 2.3 It is the subscribers' responsibility to select the correct SIM card linked to their product.
- 2.4 It is the subscriber's responsibility to configure the relevant notifications on the Customer Zone.
- 2.5 The service is a best effort service, and the speed of uploads and downloads is indicative and dependent on various factors, such as signal strength, distance from the cellular towers, congestion of the cellular towers etc.
- 2.6 Subscribers wishing to use their own hardware, must ensure that they can support the following:
 - 2.7 CHAP and PAP as an authentication method.
 - 2.8 Must be APN configurable.

- 2.9 Username and password combination may be sent automatically, via email and/ or SMS message upon provisioning of the service, to the subscriber, should the product require authentication.
- 2.10 Concurrency is limited to one connection per username and/or SIM card.

3. Specific provisions pertaining to the vox mobile data products – single sim
