Avanti Satellite Service

- National coverage
- Low latency
- VPN access
- VOIP capability
- Rapid deployment
- 365/24/7 support

Product Overview

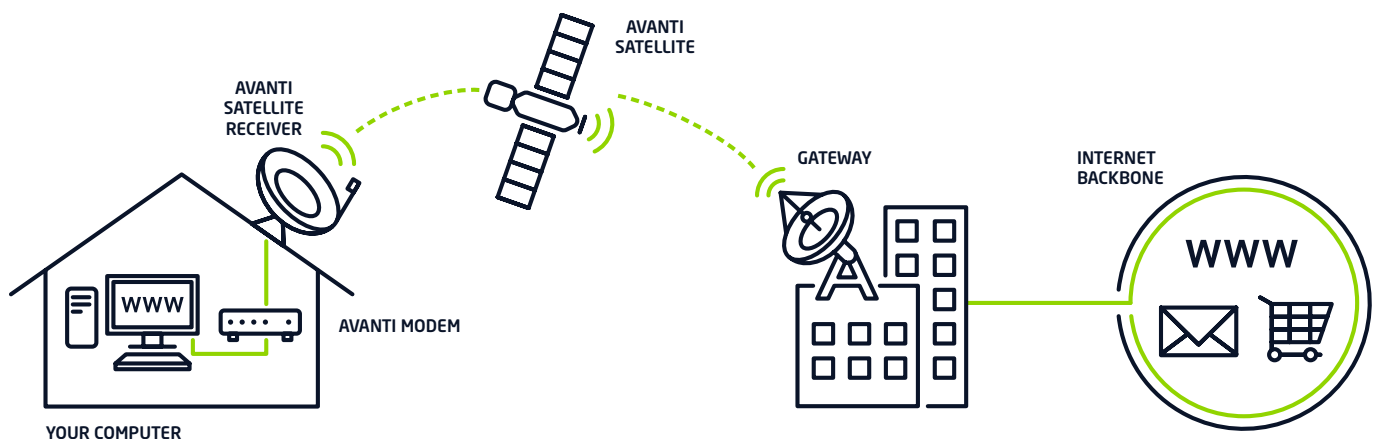

Avanti from Vox is a Ka-band Satellite service that delivers reliable high-speed Internet connectivity to users anywhere in South Africa.

Avanti is available in a range of packages as a primary or redundant broadband service. The service is delivered over High

Throughput Satellite (HTS) and is quick to install.

It is an ideal solution to connect un-serviced and under serviced areas in a short time for Internet breakout and voice over IP. It is also complementary in a SD-WAN deployment.
