- Full HD 1080p video with 30m Infra-Red
- IP66 Dust- and Waterproof
- Integration into Alexa and Google Home

Product overview

Want to keep a close eye on your home from afar? Leave the Vox Home Wi-Fi Camera in charge to notify you when you have visitors. If you know them, talk to them, if not, use the siren to scare them away.

Upon detection, the Vox Home Wi-Fi Camera activates a loud siren and strobe light to scare off intruders. The siren can reach up to 100 dB strong enough to act as a deterrent.

The Vox Home Wi-Fi Camera comes with a built-in microphone and HiFi quality speaker for enhanced two-way talk.

The integration of efficient infrared lighting, an anti-reflection panel and ICR infrared filter enables excellent night vision up to 30 meters.

With multiple storage options, you can choose where to save your recordings. The cameras can even save to all three locations at the same time for added backup in case a camera is damaged or your network crashes.

- MicroSD Card
- Encrypted Cloud Storage
- Network Video Recorder (NVR)

With the Mobile app, you can protect, capture, save and share what's valuable to you.

- Live View
- Real-Time Talk
- Instant Alerts
- Video History
- Up to 8x Zoom
- Smart Home Enabled

The Vox Home Wi-Fi Camera is easy to self-install, or speak to one of our friendly field engineers to quote on a more complex installation.

How it works

STEP 1

Download the EZVIZ app from the Apple App or Google Play store

STEP 2

Create an EZVIZ account

STEP 3

Scan the QR code on the back of the camera

STEP 4

Add the camera to your WiFi

STEP 5

Use the App to access the Camera feed from anywhere

Features and benefits

View Anywhere

Have easy access to live or recorded video through the mobile app, no matter where you are.

Record Anywhere

Record locally on a microSD card on the camera, to a wireless Network Video Recorder (NVR) on your network, or in the cloud on a pay per use basis.

Superior Image Quality

1080p Full HD image with integrated infrared lighting, an anti-reflection panel and ICR infrared filter enabling excellent night vision up to 30 meters.

Security for all seasons

Being IP66-rated the ensures a reliable and durable guard that can protect you in all types of weather: rain, sunshine or even snow.

Smart Alerts

Receive instant notifications on all your devices of movements in the camera field of view, or set up your own workflows with IFTTT (If This Then That) capability.

Manage with Ease

Make changes from any device that has the app installed, through a web browser, or even on your smart home hub.

Install with ease

Camera is durable yet lightweight and can easily be self-installed. Having built in Wi-Fi means no physical network cabling is required, only power to the camera
