

*Azure KickStart*

Downscale your  
office, **grow**  
your business

**KickStart**  
your business to  
the Cloud at your  
own pace

# No more downtime; manage your office from your smartphone, tablet or any other device whenever, wherever.

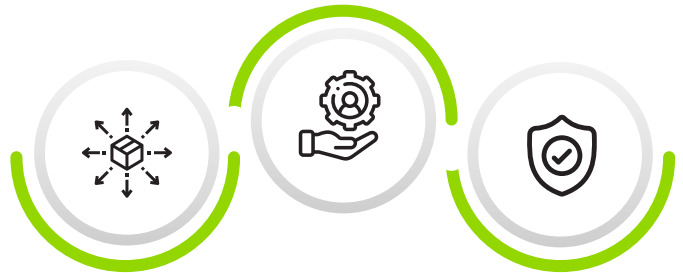

## Features

Azure KickStart is your office environment in the Cloud; managing your devices' security and protecting you against real world threats while providing your organisation with the latest in business software and productivity tools.

This leaves you free to take care of what matters most: your people, customers and growing your business.

## Azure KickStart, one Cloud offering, a whole lot of office peace of mind.

You get	With
Productivity	Security

# Why you will love Azure KickStart

- **Packaged Solution**  
To speed things up, Azure KickStart contains a pre-packaged starter kit with backup, storage and security.
- **Fixed Price**  
Fixed price ensures predictable cost management which allows for better budgeting.
- **Built for Growth**  
Start small and scale up as required - our platform is created for growth.
- **Integrates Seamlessly with Existing Microsoft Environments**  
Azure KickStart integrates seamlessly with O365, Teams, SharePoint, Power BI and more for a richer and more seamless and efficient experience.
- **Personalised Self-Service Portal**  
The Integrated Teams experience allows you to customise and manage your self-help resources to integrate with your organisation's needs.
- **Centralised Management**  
Manage your users, groups, external identities, administrative units, applications and devices while you keep your server running smoothly.
- **Free Data Migration**  
Up to 200GB of free data migration to the Cloud. This includes space for items such as applications, physical servers, data storage, email archive and SharePoint.
