

Your Next Gen, Vox Collaborate Room System.

Vox Collaborate

Unleash the power of your people with our Award-Winning Collaboration System!

- Increases productivity and cuts the costs of meetings
- Provides wireless and hassle-free presenting to improve meeting efficiency and productivity, by driving increased collaboration
- Equips every meeting space with video conferencing at a fraction of the cost of legacy systems
- Provides 4K Ultra HD resolution for 50 000 hours of use with a 5-year warranty

Product overview

Meeting spaces are a strategic element of collaboration. The design of venues and the equipment selected for collaboration impact directly on employee productivity.

When considering the frequency of meetings and the growing need for collaborative workspaces to drive efficiency and to speed decision making, it is crucial to get the technology in the venue right the first time. Outdated room systems confuse users as they are difficult to operate and do not connect participants from their devices of choice.

The Vox Collaborate Room System contains highly cost effective, all-in-one interactive touch screens with built-in PCs for whiteboarding and annotating, in-room presentation, video conferencing, web browsing and wireless content sharing from any personal device.

Each Vox Collaborate Room System has been carefully crafted to cater for venue size and includes:

- A 4K (3,840 x 2,160) high brightness LCD touch screen,
- Android and/ or Windows PC,
- Built-in wireless content sharing,
- An appropriate camera and microphone system,
- A variety of mounting options, delivered and installed,
- A host of collaboration applications with perpetual licenses and free upgrades for life

Increase productivity and cut the costs of meetings. Equip every meeting space with video conferencing at a fraction of the cost of legacy systems. Provide wireless, cable-free and hassle-free presenting solutions and 4K, Ultra HD resolution for 50 000 hours of use within a 5-year period.

FLEXIBLE SOLUTIONS

Designed to be flexible and works with your existing VC solutions and software. Our open platform approach and embedded Windows OS gives you access to Cloud applications such as Skype for Business, Teams and Google Hangouts.

NETWORKING AND SECURITY

Our touchscreens are designed to integrate with your current system set up. Remote management tools, increased security and network options, and the most comprehensive warranty on the market.

DYNAMIC MESSAGING

Send dynamic messages to your Clevertouch screens with Clever Message. Your IT department or office can create messages for 24/7 use with live alerts and announcements.

NATURAL, FLUID WRITING

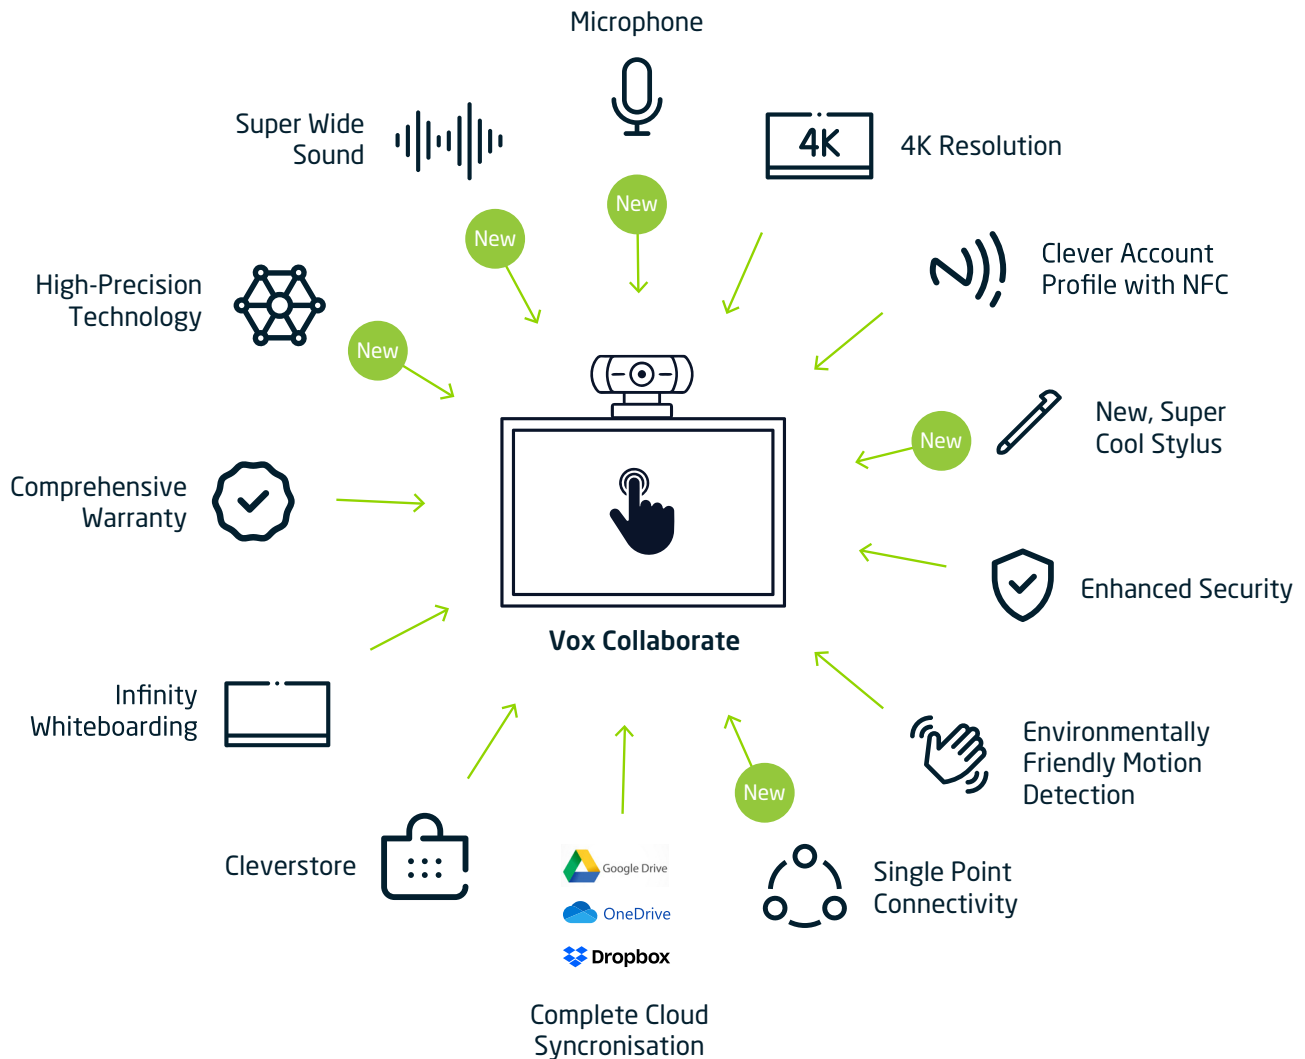

Our Super Glide Surface technology provides a natural and fluid writing experience reminiscent of a pen and whiteboard. Erase with your palm. Pinch and pull to zoom.

BLADE PC

With an optional slot-in Windows 10 Pro Intel® Core™ i5/i7 PC, you can load your existing apps and software from your network, enabling you to collaborate securely across the globe.

How it works

Microphone

Built-in line array microphone.

4K

True resolution and sharper user experience throughout.

Clever Account Profile with NFC

With an NFC sensor built into the bezel, just tap your NFC card on the bottom of the screen to instantly log into your profile.

New Super Cool Stylus

Comfort stylus to aid teaching.

Security

We know how important it is to be secure, so we've got lots of options for you to keep control of your device. Clevertouch can run on-or-off the network. Settings, apps and Android can all be disabled. Data can be wiped at the end of a session and the screen can be locked with a secure password.

Environmentally Friendly Motion Detection

Equipped with Proximity Sensors with Clevertouch will power off when no one is detected in the room.

Connectivity

Huge connectivity including two of the latest USB-C ports. Allows single cable connection for audio, video and touch. One USB-C gives the ability to charge your device while also casting to the main display.

Cloud Accounts

Sync with your Cloud accounts so that you can work anywhere at anytime.

Cleverstore

Access hundreds of free teaching apps to make lessons more engaging.

Infinity Whiteboarding

Never run out of space with our infinite canvas. With numeracy tools, handwriting-to-text recognition, and the ability to insert images and shapes, printed, or shared to student devices.

Comprehensive Warranty

No ongoing subscriptions charges.

High Precision Technology

Our patented Super Glide Touch technology offers the most fluid writing experience on a touchscreen. It's as smooth as writing on a whiteboard - with no lag. With the ability to differentiate between palm-erase, fingertouch, and stylus-writing, there's no need to change settings mid-flow.

Super Wide Sound

45W Max Power for room-filling sound.

Features and benefits

- **Complete range of 4K screen sizes 65", 75", 86"**
Enables you to equip meeting venues of varying sizes with an appropriate solution whilst providing the same user interface in every venue.
- **Wireless content sharing from any personal device**
Simple, bi-directional connectivity which allows users to share any content from any device to the screen and into a video conference call whilst having full control of their PC from the touchscreen. Up to 4 participants can share content on the display at once.
- **Video Conferencing**
Vox Room solutions have been designed to be flexible and agnostic, so you can use your existing VC solutions and software. Our open platform approach gives you access to cloud-based applications such as Skype for Business, Teams, Vox Air, Slack, Zoom, and Google Hangouts.
- **Natural, Fluid Writing**
Provides a natural writing experience with no lag. Whiteboard or annotate over any document. Erase with your palm. Pinch and pull to zoom. Enjoy great gesture controls with infinite whiteboarding.
- **Dynamic Messaging**
Send real-time messages to your Vox Room screens. IT, Marketing and Corporate Communication teams can create messages for 24/7 use with live alerts and announcements.
- **The Vox Collaborate Room System**
Includes remote management of displays as well as digital signage on each screen managed from a central source. Installed within hours and includes training at installation.

The Vox
Collaborate Room
System delivers
unrivalled value
