

Email Ecosystem

With billions of Emails sent annually, it's fast become the primary communication tool for businesses worldwide. As your first point of contact, your Email is the face of your business, yet with the opportunity it presents comes major risk.

Many SME's are unaware of the various components which will enable them to utilize Email to it's full potential, nor that having a missing component potentially compromises your brand security. With this in mind, Vox have formulated solutions that minimise this danger while maximising your brand potential.

These include:

A unified supplier of all Email portfolio products.

A wide spectrum of features.

Holistic, all-in-one Email solution.

Tried, tested & reliable brand portfolio.

Month-to-month contracts & non-protracted billing.

24/7/365 support.

Email

Below are 5 key areas to consider:

Cloud Mail:

Your Cloud-based enterprise-class Email, calendar and collaboration solution, perfect for small to medium companies. Access Data anywhere.

Personalised Domain:

Free domains leave you at the mercy of what's available, but your business needs personalisation to and be taken seriously. Skyrocket your credibility from under R100 a year.

Email Security:

Over 90% of ransomware attacks originate from compromised Email- and the recovery cost is exponential. Protect your business and your Data with advanced ransomware from Vox.

Email Archiving:

Did you know that 1 in 10 laptops suffer hardware failure and Data loss? Protect your critical with a safe, recoverable archiving solution that keeps Data on record off-site.

Email Branding:

On average, an employee sends up to 100 mails a day. Why miss the opportunity to use this as a marketing tool, in turn captivating an already engaged audience?

How it Works
