- South Africa's leading MFP brand
- Remote support by Vox engineers
- Optional on-site warranty service
- 3 year warranty
- Auto low toner alerts and Online replacement
- Lowest cost per page

Product Overview

For most business professionals, work from home (WFH) is the new normal.

A new era has emerged when it comes to working patterns, with the increased need for flexibility that bridges the gap between home and traditional office workspaces. The office will be reinvented to include professional services at home.

Traditional home printers are not designed for the requirements of the modern professional. Printing, copying, scanning and faxing are all critical features. In addition, trying to print work volumes on a home printer will result in huge toner bills.

The Vox KYOCERA Print Solution brings all the benefits of an office solution at consumer pricing levels.

Main Features and Benefits

• Remote support

All KYOCERA printers come standard with remote management software that allows our engineers to monitor all your devices from anywhere, receive direct device notifications and quickly identify issues that need attention. Remotely troubleshoot key maintenance tasks on KYOCERA devices, including firmware upgrades and setting adjustments, and repair without the need for coming onsite. This means support calls are dealt with in minutes rather than days.

• Advanced Maintenance Plan

All KYOCERA printers come standard with a 3-year -100 000 prints manufacturer warranty backed up by a National footprint of Kyocera repair centers. In addition, our optional advanced maintenance plan sends engineers to your premises next business day when a warranty call is activated.

*Please note that there is an additional nominal monthly fee should you choose the Advanced Maintenance Plan.

• Toner replenishment plan

Vox offers an automated alert service to make sure that your printer never runs out of toner. Advanced notifications allow you replenish via the Vox site, with an estimated delivery time of three to five days in all major metros.

Market leading technology

KYOCERA is consistently among the market leaders in South Africa. It's award winning printers deliver superior performance and best-in-class reliability.

Long-life imaging components dramatically lower total costs while providing the high productivity and exceptional image quality your business demands.

• Flexible payment models

Vox offers 12 and 24 months rental options, taking pressure off your cash flow.

• Feature Rich Functionality

All models are laser print which means less downtime and significant savings on toner costs.

All models include standard features such as mobile print, wifi capability, double sided and high quality print with low power consumption.

Broad Product Portfolio

Vox has selected 3 models to cater for all requirements.
