

SD-WAN Lite

Vox SD-WAN Lite

Maximise Internet Availability and Vox Voice Quality

- Improve the quality of connectivity to support VOX Voice
- Monitor the state of your WAN network from anywhere
- Improve uptime of connectivity by means of automatic failover
- Receive notifications when links go down and are restored
- Quick and easy to install
- Utilise available bandwidth efficiently by means of load balancing
- Reduce the cost of connectivity without compromising on quality
- Manage the WAN more effectively with WAN performance reports

Product Overview

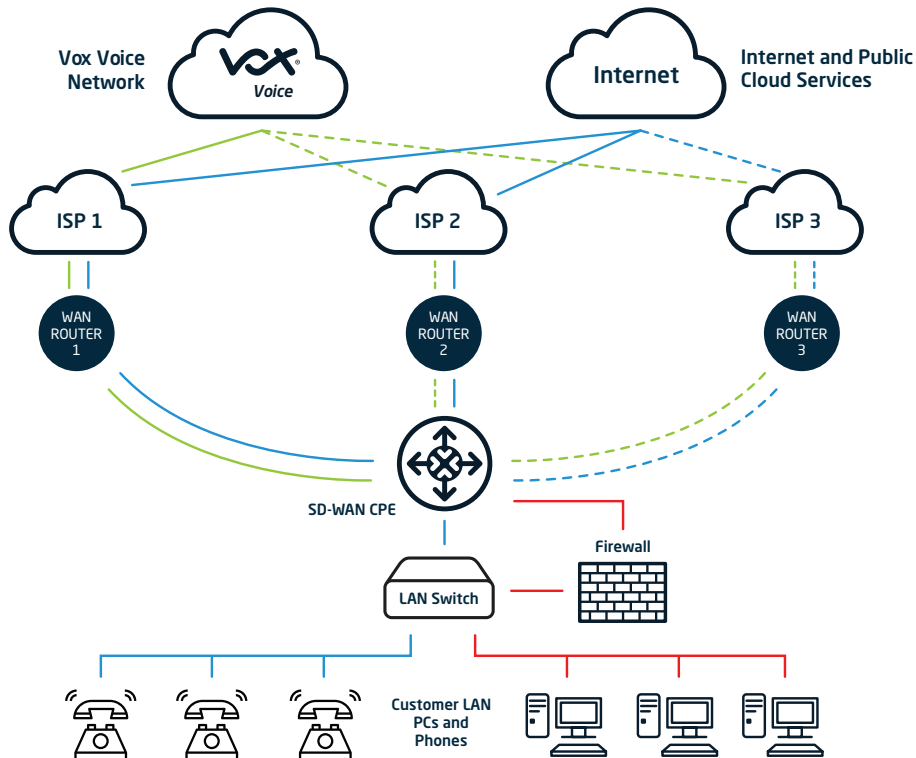

SD-WAN Lite is an entry-level SD-WAN (Software Defined Wide Area Network) solution, engineered to cater for the SME and small branch office that demands high resiliency in Internet connectivity, reliability and excellent Vox Voice quality.

It integrates any combination of broadband connectivity,

including ADSL, LTE, Microwave and Fibre, to provide a high quality customer experience. It can accommodate up to 3 simultaneous Internet connections, utilising automatic failover and load balancing to ensure the best performance.

SD-WAN Lite can easily be configured to prioritise specific links for Vox Voice traffic and failover to maximise voice quality.

How It Works

Visit us at vox.co.za

Features and Benefits

Features	Benefits
Alerting and control	Get notified via Email of link downtime and when a failover event occurs, users can adjust their load balancing and failover strategies at will.
WAN failover	Automatic link fail over to improve uptime.
Load balancing	Traffic load balancing, or a combination of both methodologies.
Voice optimisation	An advanced FEC (Forward Error Correction) algorithm ensures optimal Vox Voice quality on lower quality Internet links that might experiencing packet loss.
Zero-touch provisioning	SD-WAN CPE devices are plugged in and automatically configured based on desired fail over policies.

Vox SD-WAN LITE

About Vox

Innovation and insight combine in Vox, a market leading end-to-end integrated ICT and infrastructure provider and telecommunications company. From data to voice, as well as cloud, business collaboration and conferencing tools, Vox offers

intelligent solutions that connect South Africans to the world, supporting entrepreneurs, customers and commerce, whilst practicing values of integrity, choice and service excellence in all of its dealings. For more information [click here](#).
