Expert home Wi-Fi where you need it most

Wi-Fi Home Executive

An executive home Wi-Fi experience is available for every home

- Comprehensive home assessment with expert Wi-Fi solution design
- Professional installation
- Managed by Vox via Network Cloud Controller
- Rental or purchase options available
- 24/7 customer support from our VSC support desk
- Managed services or standalone options available

Product Overview

The Vox Wi-Fi Home Executive offering delivers a seamless and reliable Wi-Fi experience to larger homes. Using the latest technology available, we provide high-speed performance that supports real-time video calling, streaming services and more.
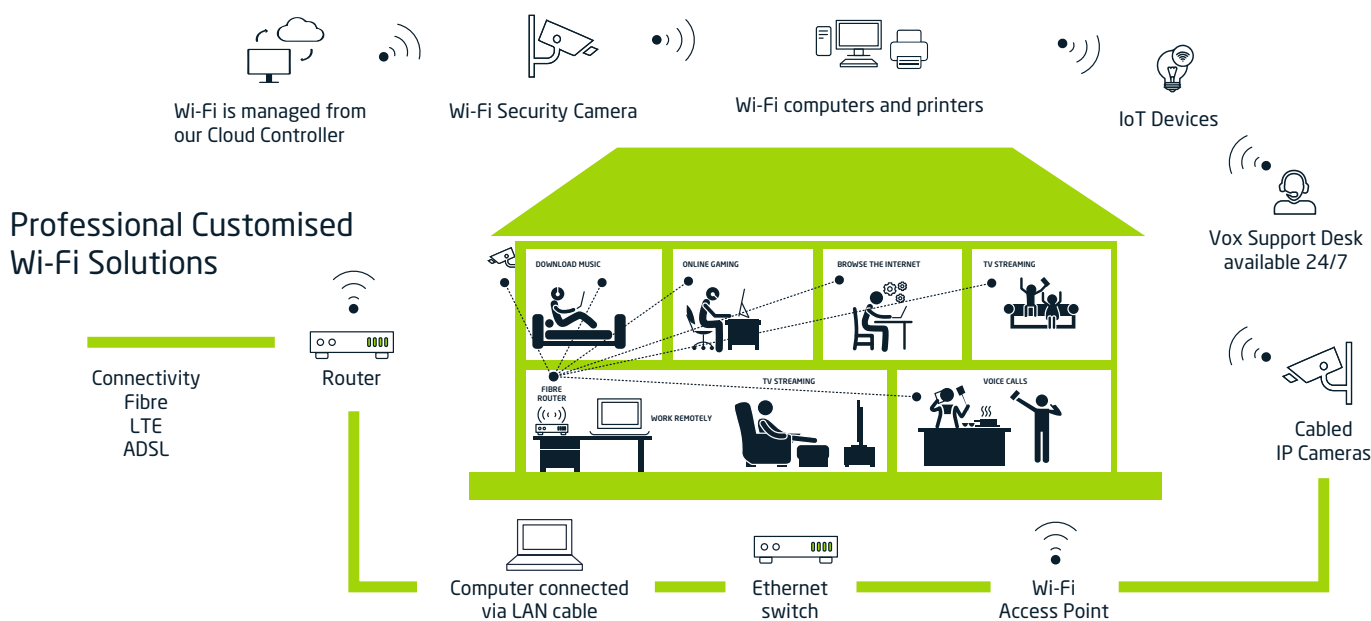

We conduct a comprehensive in-home assessment to determine the most accurate positioning of each access point, ensuring all possible Wi-Fi dead spots are reached.

We offer the best technology available with the ability to upgrade easily via our rental solutions.

We know professionals don't have time for technical glitches, that's why our Managed Services solution enables our support technicians to resolve most Wi-Fi issues remotely.

Vox also offers outright purchases, with Managed Services as an additional extra.

How It Works

Wi-Fi is managed from our Cloud Controller

Wi-Fi Security Camera

Wi-Fi computers and printers

IoT Devices

Professional Customised Wi-Fi Solutions

Connectivity
Fibre
LTE
ADSL

Router

DOWNLOAD MUSIC

ONLINE GAMING

BROWSE THE INTERNET

TV STREAMING

FIBRE ROUTER

TV STREAMING

VOICE CALLS

WORK REMOTELY

Features and Benefits

Professional Design and Installation
Experienced engineers will install and setup everything you need in the best possible position to ensure great signal and performance.

Premium hardware to maximise throughput and range
Based on scoping and assessment, Vox will propose the best hardware and equipment to create a customised Wi-Fi solution for your home.

Managed Services
Managed Services includes benefits such as support and software upgrades.

Rental or Purchase Options Available
Save money on technology replacements or upgrades via our rental solution or choose to purchase the equipment outright.

Additional Information

- Actual wireless data throughput, wireless coverage, and the number of connected devices are not guaranteed and will vary as a result of:

  1) Environmental factors, including building materials, physical objects, and obstacles.
  2) Network conditions, including local interference, volume and density of traffic, product location, network complexity, and network overhead.
  3) Client limitations, including rated performance, location, connection quality and client condition.

- Range, coverage, and the maximum number of connected devices are based on test results under normal usage conditions.
