Product Overview

Vox SME Wi-Fi is a cost-effective integrator of Wi-Fi services to the SME market, offering customised choices for all SME businesses. These include: Managed or unmanaged services, rental or outright purchase options and optional Guest Wi-Fi with a captive portal and personalised landing page, we can also include detailed analytics for marketing purposes.

We provide a scalable solution for the retail, entertainment, hospitality, and the manufacturing industries, with full support to allow connections for any Wi-Fi enabled device or application. A comprehensive scoping and implementation process ensures you'll get the best solution to meet your needs.

How It Works

Features and Benefits

Vox Guest Wi-Fi (Optional)

The Guest Portal enables venues to personalise user on-boarding, increase customer engagement and even monetise through third party offers and marketing.

Wi-Fi Assessments (Either onsite or via floorplan desktop survey)

Scoping and RF(Radio Frequency) planning ensures your Wi-Fi coverage reaches the areas you want and need it most.

Service and Support

Vox SME offers a fully managed Wi-Fi suite and experienced consultants to ensure best practice implementation.

Rental or Capex

Vox SME offers a rental option that saves money on technology replacements or upgrades. The choice is yours.

Analytics (Optional)

Learn how and when your network is being used to gain insight into your customers.

Managed services

This is a fully managed solution from Vox. Planning, deployment, and maintenance is completely taken care of by a team of experienced engineers to provide you with complete peace of mind.

Additional Information

Vox has deployed managed Wi-Fi solutions for customers since 2012. We are industry experts in deploying enterprise grade Wi-Fi solutions that work, are secure and cater for every SME client's Wi-Fi requirement.
