

# Managed Print

## KYOCERA MFP

We take the hassle out of printer management

- South Africa's leading MFP brand
- Remote Support by Vox Engineers
- Onsite Warranty Service
- 3-year Warranty
- Auto low toner alerts and online replacement
- Lowest cost per page

### Product Overview

For many companies, their printer estate has become an area of huge cost overrun. Large A3 printers that sit idle, or aren't used for purpose, whilst you continue to pay your printer rental company thousands. At the same time, staff work from home without the ability to print.

Of course, you can downgrade, but printer companies will want to lock you in for up to 5 years, whilst charging you an additional premium every time you print or copy.

Here is the fact. Up to 80% of prints and copies are A4 black & white. So, ask yourself, why so many expensive A3 printers?

At Vox, our model is simple. We don't lock you into long term contracts. We don't charge you transaction fees every time you use the device, and our models are affordably priced, irrespective of whether users are at home or at the office.

We even offer month-2-month contracts on black & white models, whilst colour models include flexi-payment options of 12- and 24- month rentals.

Let our skilled technicians do an assessment today on your printer utilisation and show you how much money you can immediately save.

### Main Features and Benefits

- **Onsite Installation**  
Vox engineers will set up your printer and activate your management system to send low toner alerts. Free for contract customers.
- **Remote Support**  
All Kyocera Printers come standard with remote management software that allows our engineers to monitor all your devices from anywhere, receive direct device notifications and quickly identify issues that need attention. Remotely troubleshoot key maintenance tasks on KYOCERA devices, including firmware upgrades and setting adjustments and repair without the need for coming onsite. This means support calls are dealt with in minutes rather than days.
- **Advanced Maintenance**  
All KYOCERA printers come standard with a 3-year -100 000 prints manufacturer warranty backed up by a national footprint of Kyocera repair centres. Vox has a 24/7 service desk. Should you encounter any issues, you can call for assistance. In addition, our advanced maintenance plan sends engineers to your premises next business day when a warranty call is activated.
- **Toner Replenishment plan**  
Every printer is delivered with free start up toner. Vox offers an automated alert service to make sure that your printer never runs out of toner. Advanced notifications allow you to replenish via the Vox site, with an estimated delivery time of 3-5 days in all major metros.
- **Market leading Technology**  
KYOCERA is consistently among the market leaders in South Africa. It's award winning printers deliver superior performance and best in class reliability. Long Life imaging components dramatically lower total costs while providing the high productivity and exceptional image quality your business demands.
- **Flexible payment models**  
Vox offers month to month, 12- and 24-month rental options, taking pressure off your cash flow. Month- 2-month contracts on selected models with no long-term lock in means no large upfront capital outlay.
- **Feature Rich Functionality**  
All models are laser print which means less downtime and significant savings on toner costs. All colour models include std features such as mobile print, Wi-Fi capability, double sided print and low power consumption.
