

# Microsoft Hosted Email

# Hosted Exchange

Increasing productivity while protecting your data - all at a simple and reasonable cost - our hosted exchange solution comes with a range of benefits

- Enabling you to share and collaborate smoothly
- Web and mobile access to email
- Keeping your data secure with advanced email cloud security from Mimecast®
- Available around the clock
- No capital outlays
- Seamlessly manages email, contacts, folders and calendars, as well as assigns tasks, and creates events

## Product overview

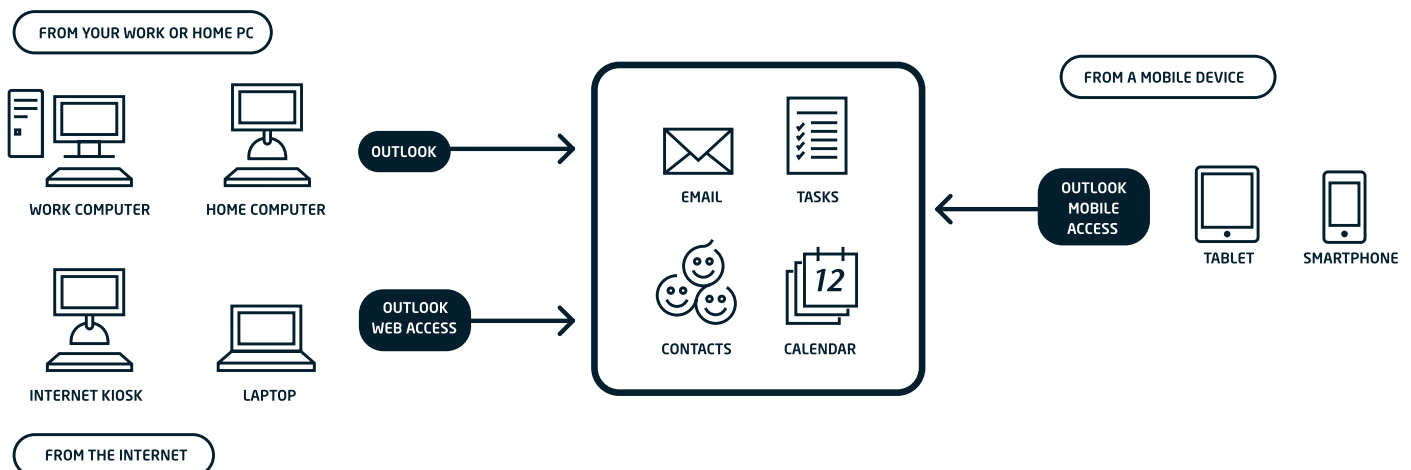

Whether your business is an SME or large enterprise, Hosted Exchange offers solutions that are both robust and scalable by design.

Catered to meet your every business-grade email need, our hosted email offering delivers the most competitive and cost-effective service on the market. Giving your business the best possible feature set that promises uptime

and availability at the highest priority, Hosted Exchange also offer a multi-data centre failover.

In addition, Mimecast® - the Leaders in cloud-based email management for Microsoft exchange, is included across all our exchange packages. These services consist of security, archiving, continuity and targeted threat protection.

## How it works

## Features and benefits

### More Than Just a Hosting Provider

- Build, implement and customise any of our offerings to align with your requirements. Granular GAL sync is just one of the examples of what sets us apart.

### Current Technologies

- Want the latest versions of Exchange and CSP? We deploy them as Microsoft releases them

### Local Data, Local Law

- We are compliant with the latest SARS regulations, allowing you to prove data residency. Local data residency also ensures that your data is not subject to the USA Patriot Act, and other data security concerns.

### Mobility Options

- We include Exchange ActiveSync services as a standard offering.

### Security

- Protects against malware, spam, phishing, DHA and DDoS attacks, deliberate or accidental data leaks, outages, and social engineering attacks

### Targeted Threat Protection (on request)

- Targeted threat protection – defend against spear-phishing ransomware and other URL and attachment triggers across any device anywhere

### Archiving (only enterprise)

- Instant access to every email ever sent or received with central control of email retention policies

### Hosted Enterprise Services

- Our core products include Hosted Exchange, mail cleansing archiving, email signatures and migration to the cloud.

### Distributed Data centres

- Multi-data centre failover.

### Shared and Dedicated Hosting Options

- Offers both shared and dedicated platforms to suit your business requirements.

### Industry Recognised skills

- Our service architecture is built by reputable, recognised professionals – including Microsoft MVPs and Microsoft Certified Masters.

### Consulting Services

- Our consulting services include scope and data ingestions, long-term co-existence, and migration from virtually any data source..

Increasing  
**productivity**  
while **protecting**  
your data,

all at a  
**reasonable**  
**cost**
