

Future-proof your company Wi-Fi

Enterprise Wi-Fi

We'll handle the management while you maintain control

- 24/7 Support from the Vox Service Centre
- Simple, rapid deployment with centralised control
- Extensive number of concurrent Wi-Fi connections
- Fully managed Wi-Fi suite for businesses (with comprehensive SLAs)
- Comprehensive frequency planning based on building structures
- Experienced consulting to ensure best practice implementation

Product Overview

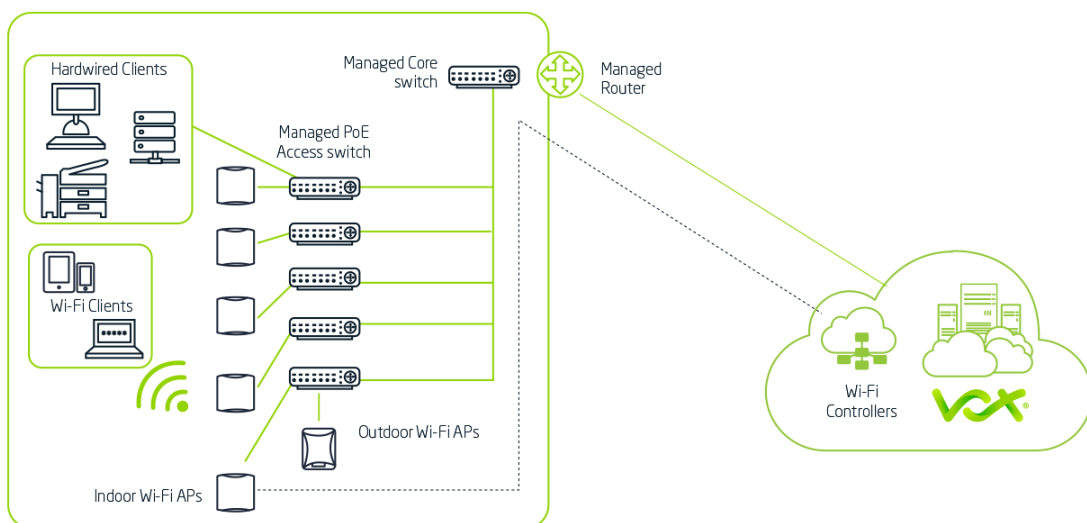

Vox Enterprise Wi-Fi offers hassle-free, state-of-the-art Wi-Fi connectivity, and accommodates enterprise-wide mobility for WFH (Work from home) and BYOD (Bring Your Own Device) initiatives.

Prior to installation, a fully-managed scoping engagement, including heat map and comprehensive RF (Radio Frequency) design, is conducted. This includes a centralised Vox Managed Service environment to manage your Wi-Fi Access Point deployments with rapid deployment in mind.

Expanded security layers, with integration into your employee directory service (i.e., Microsoft AD) creates added control for employee onboarding and authentication. Vox Enterprise Wi-Fi further extends its service integration with BYOD and Wi-Fi Guest portals in mind.

Vox Enterprise Wi-Fi is the perfect extension of your organisation's Wi-Fi network, bringing total control and the best Wi-Fi user, troubleshooting and management experience to your wireless network environment.

How It Works

Features and Benefits

Professional Services

From assessment and scoping, to installation, implementation and management, our team of experienced Wi-Fi experts will tailor and manage your Wi-Fi installation and support process from start to finish.

Advanced Heat Map and Frequency Scoping

Vox Enterprise Wi-Fi undertakes to accurately scope each client's environment to propose the best Access Points and their positioning, as well as switches, and any other required hardware to best achieve their WLAN objective.

Comprehensive Wi-Fi SLAs

Vox Enterprise Wi-Fi offers an SLA programme that provides complete peace of mind. Our Managed Services team ensures you'll have access to best-of-breed support, 24/7.

Powerful Client Troubleshooting

Thanks to optional analytics / reporting, you can receive a complete picture of the end-user Wi-Fi experience for easy connectivity and user experience.

Improved Wi-Fi Experience

With optional analytics services selected, we can give IT comprehensive visibility into your network operations to reduce IT support calls.

Managed Services

Vox Enterprise Wi-Fi is a fully-managed solution from Vox. Planning, deployment, and maintenance is completely taken care of by a team of experienced engineers.

Enjoy **reduced costs** and **secure, user-friendly Wi-Fi**
