Vox SME Wi-Fi

Secure and seamless Wi-Fi that works how, where and when you need it.

- Fully managed Wi-Fi for businesses

- Remote support, troubleshooting and problem solving

- Simple, rapid deployment with centralised control

- Comprehensive design and planning based on building structures

- 24/7 support from the Vox Technical Service Centre

- Guest Wi-Fi with analytics can be used for marketing purposes (optional)

PRODUCT OVERVIEW

Vox SME Wi-Fi is a cost-effective integrator of Wi-Fi services to the SME market, offering customised choices for all SME businesses.

These include: Managed services, rental or outright purchase options and optional Guest Wi-Fi with a captive portal and personalised landing page. We can also include detailed analytics for marketing purposes.

We provide a scalable solution for the retail, entertainment, hospitality and manufacturing industries, with full support to allow connections for any Wi-Fi enabled device or application. A comprehensive scoping and implementation process ensures you'll get the best solution to meet your needs.

FEATURES AND BENEFITS

- **Vox Guest Wi-Fi (Optional)**
  The Guest Portal enables venues to personalise user on-boarding, increase customer engagement and even monetise the Wi-Fi offering through third party offers and marketing.

- **Wi-Fi Assessments (Either onsite or via floorplan desktop survey)**
  Scoping and RF (Radio Frequency) planning ensures your Wi-Fi coverage reaches the areas where you want and need it the most.

- **Service and Support**
  Vox SME offers a fully managed Wi-Fi suite and experienced consultants to ensure best practice implementation.

- **Rental or Capex**
  Vox SME offers a rental option that saves money on technology replacements or upgrades. The choice is yours.

- **Analytics (Optional)**
  Learn how and when your network is being used to gain insight into your customers.

- **Managed Services**
  This is a fully managed solution from Vox. Planning, deployment and maintenance is completely taken care of by a team of experienced engineers to provide you with complete peace of mind.

ADDITIONAL INFORMATION

Vox has deployed managed Wi-Fi solutions for customers since 2012. We are industry experts in deploying enterprise grade Wi-Fi solutions that work, are secure and cater for every SME client's Wi-Fi requirements.
