

# Alcatel-Lucent Enterprise PBX

## On-site, fully managed Alcatel-Lucent Enterprise PBX

- Fully managed, on-site Alcatel-Lucent Enterprise PBX
- Supports multiple technologies (TDM, IP, DECT and WLAN)
- Make the move to IP telephony at your own pace
- Unified communications and collaboration technology
- Scalable and feature-rich
- Market-leading, trusted brand

## PRODUCT OVERVIEW

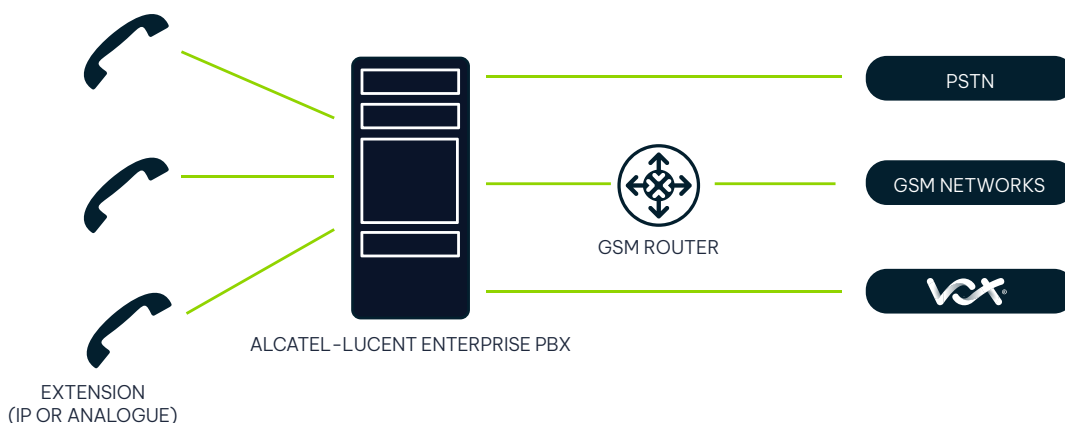

Alcatel-Lucent Enterprise is a recognised leader in the SME and enterprise market, with proven credentials to deliver integrated, end-to-end communications solutions. Designed for SME and enterprise customers, this portfolio includes the Alcatel-Lucent Enterprise OmniPCX office and Enterprise PBX's, as well as a mobility and unified communications/collaboration (UC/C) suite of add-ons, which are delivered across both broadband and mobile networks.

The add-ons offer cost control, security and usage features that support the needs of most SMEs. One of

the key advantages of this Alcatel-Lucent Enterprise PBX is the ability to integrate with your existing TDM environment and then migrate to cost-saving IP telephony when you are ready.

The Alcatel-Lucent Enterprise PBX offers your business everything from basic analogue user requirements all the way through to advanced, end-to-end business communication, which means that it adapts as your business grows. The Alcatel-Lucent Enterprise PBX and the add-ons are modular, easy to use, and highly reliable.
