Sophos Firewall

Tired of slow networks and worrying about cyberattacks? Sophos Firewalls are here to help! They're super-fast, use less energy, and keep everyone connected.

- Save money on power with these energy-efficient firewalls, which translates to lower electricity bills for you.

- Experience high speed performance with these firewalls, which can handle even the busiest workdays without slowing down.

- Smart AI - powered security keeps you protected from the latest cyber threats, including ones that have never been seen before.

- Secure connections ensure that your team, whether working from home or in different offices, has safe and reliable access to your network.
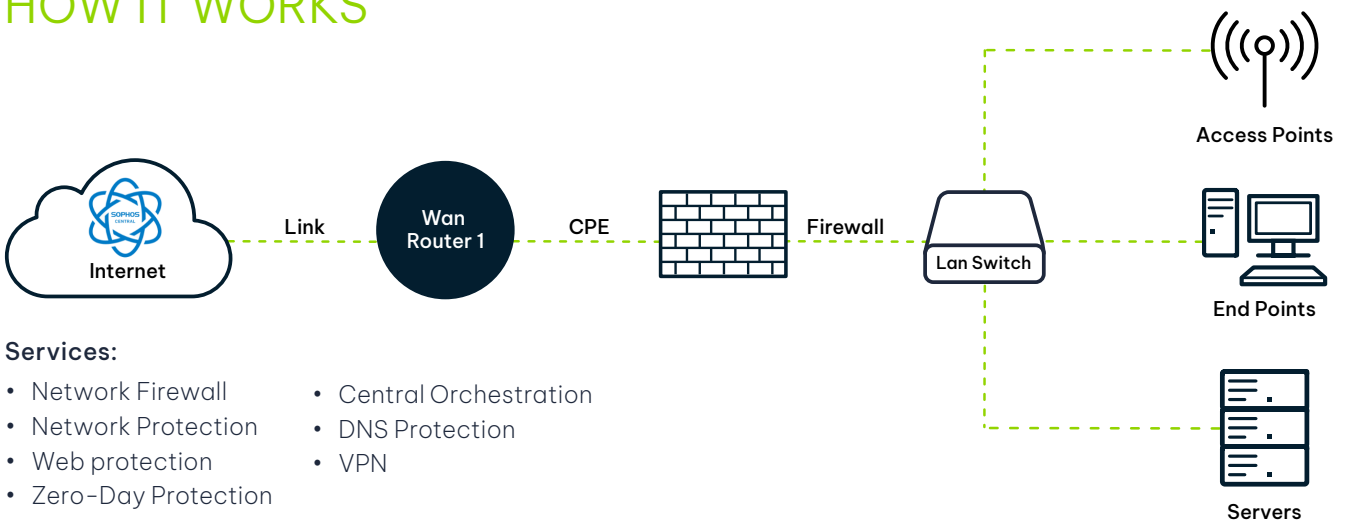

PRODUCT OVERVIEW

Cyberattacks are getting smarter, and downtime is a killer for businesses. Managing your own security can be a headache and expensive. That's where we come in!

Vox offers affordable security expertise, acting as an extra pair of hands for your team. Our Sophos Firewalls are perfect for small and medium-sized businesses, as well as branch offices. You get high-level security in a compact and budget-friendly package. So, you can focus on your business, not your security.

Whether you want to handle things yourself with a little help from us, or you'd prefer us to manage everything for you, we've got plans and reporting options to fit your needs.

66 **Performance** and **Protection** 99
Hand in Hand

FEATURES AND BENEFITS

- **No Hidden Costs, Just Great Security**
  Get everything you need in one package – no surprises! Just straightforward, comprehensive security, aligning with your budget

- **Easy to Use, Even for Non-Techies**
  Managing your security shouldn't require a PhD. Our simple interface makes it easy for anyone to keep things running smoothly.

- **Advanced Threat Protection**
  Our advanced tech blocks viruses, ransomware, hackers – you name it. We've got you covered!

- **Keep Things Safe and Productive**
  Block those time-wasting websites and non-work apps. Boost security and productivity at the same time.

- **Fast and Secure Network**
  Protecting your data shouldn't mean slowing things down. Our firewalls keep your network running at high speed.

- **Super-Smart Network Connections**
  Our Secure SD-WAN finds the fastest connection and automatically switches to a backup if there's a problem. No more dropped connections or slowdowns!

> **"** The next generation of **security** is here – **faster, smarter, and safer. "**
